Speakers

Mitsuhiro Tsukiboshi

Dr Tsukiboshi is a graduate of Osaka University School of Dentistry in 1976. He earned a PhD in dental materials from Kyoto University in 1980 and has been engaged in private practice since 1981. Dr Tsukiboshi's interest in dental traumatology and autotransplantation has led to extensive clinical involvement, course presentations and publications. Dr Tsukiboshi has lectured extensively on dental trauma and autotransplantation; he has authored many articles and two textbooks, one on dental trauma in 1998 and one on autotransplantation in 2000. The books have been published in several languages, including English. Dr Tsukiboshi is a visiting lecturer at Osaka University and Loma Linda University since 1998 and is the President of the International Association of Dental Traumatology in 2009 and 2010. Dr Tsukiboshi is certified as an adjunctive assistant professor of Western university in USA since 2012 and a clinical professor of the dental school of Tohoku University since 2015.

Monty Duggal

Professor Duggal obtained his dental degree and MDS in Paediatric Dentistry from India. He then immigrated to the United Kingdom and obtained his FDSRCS from the Royal College of Surgeons of England and his PhD from University of Leeds. He was appointed Professor and Chair of Child Dental Health at Leeds Dental Institute in 1999 where he oversaw a large postgraduate programme in Paediatric Dentistry which has international acclaim. In January 2017 he was appointed as Professor of Paediatric Dentistry in Faculty of Dentistry, National University of Singapore. Professor Duggal has published over 130 research papers in international journals and is author of "Restorative Techniques in Paediatric Dentistry", which has been published in 7 languages and has sold over 16,000 copies worldwide. He is also a co-author of a textbook on Dental Traumatology and has co-edited "Paediatric Dentistry" by Oxford, now in its 4th edition, and more recently "Paediatric Dentistry at a Glance", published by Blackwell Willey. He has administered research grants totaling over seven million pounds and is an internationally recognised researcher and clinician with main research interests in Cariology and Translation Research in Clinical Paediatric Dentistry, including Dental Traumatology. Apart from Paediatric Dentistry, his main interest is playing and watching cricket and any time spare from work and family is devoted to this important activity.
